

P-Rank: a publication ranking

P-Rank is a publication ranking intended to increase recognition of scholars with notable publication output.

There are many different ways in which notable publication output can be identified. Therefore, P-Rank comprises several rankings in which different journals are listed and further rankings may be added in the future. Also, P-Rank allows to adjust the way in which co-authored publications are counted. A description how P-Rank evaluates scholarly output can be found in the Methodology section.

In order to better acknowledge the publication output of young scholars, P-Rank provides multiple versions of each ranking, where in each version only those articles which have been published since a particular year are considered. Similarly, P-Rank allows to restrict the ranking to certain regions and countries in order to acknowledge potential differences in the research environment.

The ranking shown below has been generated with the following settings:

- Publications are evaluated with co-author bonus (see Methodology): 50
- Only those articles are considered which are published since: 2019
- If no countries or regions are listed below, all authors are considered. Otherwise, only those authors are considered who have an affiliation in the following regions and countries:

France

HCERES Ranking

| Rank | Given name(s) | Family name | | Affiliation | Country | Points |
|------|---------------|-------------|---|---|---------|--------|
| 1 | Yeming | Gong |  | EMLYON Business School | FR | 60.45 |
| 2 | Alexandre | Dolgui |  | IMT Atlantique (former Ecole des Mines de Nantes) | FR | 59.95 |
| 3 | Alessio | Ishizaka |  | University of Portsmouth, NEOMA Business School | GB, FR | 38.61 |
| 4 | Fabio | Furini |  | Université Paris Dauphine | FR | 34.75 |
| 5 | Ivana | Ljubic |  | ESSEC Business School of Paris | FR | 26.75 |
| 6 | Michael | Poss |  | CNRS/LIRMM | FR | 23.55 |

| Rank | Given name(s) | Family name | | Affiliation | Country | Points |
|------|---------------|--------------|---|--|------------|--------|
| 7 | Rameshwar | Dubey |  | Montpellier Business School, South University of Science and Technology of China, Symbiosis Institute of Operations Management | IN, FR, CN | 22.55 |
| 8 | Jin-Kao | Hao |  | Institut Universitaire de France, Université Angers UFR Sciences | FR | 19.48 |
| 9 | Nicholas G. | PAPAROIDAMIS |  | École de Management Léonard de Vinci | FR | 18.50 |
| 10 | Steffen | Roth |  | La Rochelle Business School, Kazimieras Simonavičius University, Yerevan State University | FR, LT, AM | 18.09 |
| 11 | Ludovic | Leclercq |  | Université Gustave Eiffel | FR | 17.50 |
| 12 | Fotios | Pasiouras |  | Montpellier Business School | FR | 15.50 |

| Rank | Given name(s) | Family name | | Affiliation | Country | Points |
|------|---------------|-------------------|---|---|---------|--------|
| 13 | Zhiyang | SHEN |  | IESEG School of Management, China Eximbank | FR, CN | 13.60 |
| 14 | Öncü | Hazır |  | Rennes School of Business | FR | 13.50 |
| 15 | Zied | Ftiti |  | EDC Paris Business School, Institut Supérieur de Gestion de Tunis | FR, TN | 13.00 |
| 15 | Tatiana | Bouzdine-Chameeva |  | Kedge Business School Bordeaux | FR | 13.00 |
| 17 | Volker | Kuppelwieser |  | NEOMA Business School | DE, FR | 12.52 |
| 18 | Laurent | Weill |  | University of Strasbourg | FR | 12.50 |
| 19 | Duc Khuong | Nguyen |  | Indiana University Bloomington School of Public and Environmental Affairs, IPAG Business School | US, FR | 12.38 |

| Rank | Given name(s) | Family name | | Affiliation | Country | Points |
|------|----------------|---------------|---|-------------------------------|---------|--------|
| 20 | Kristiaan H.J. | Kerstens |  | | FR | 12.00 |
| 21 | Shenle | Pan |  | Mines ParisTech | FR | 11.75 |
| 21 | Emilios | Galariotis |  | Audencia Nantes | FR | 11.75 |
| 21 | Dirk | Schneckenberg |  | ESC Rennes School of Business | FR | 11.75 |
| 24 | Ramzi | Benkraiem |  | Audencia Nantes | FR | 11.50 |
| 25 | Dominique | Feillet |  | Mines Saint-Etienne | FR | 11.35 |

Number of authors ranked: 156

Methodology

For each author, P-Rank determines the articles which are published in journals listed in the journal list of the selected ranking. For each of these articles, the value

$$\text{journal score} \cdot \max \left\{ 0, \frac{1}{\text{authors}} + \frac{\text{bonus}}{100} \cdot \frac{\text{authors} - 1}{\text{authors}} \right\}$$

is added to the total points of the author. Here, **journal score** is the score of the journal in the selected ranking, **authors** is the number of co-authors of the article, and **bonus** is the co-author bonus specified above. This means that with a co-author bonus of 0, the journal score is divided by the number of authors, and with a co-author bonus of 100, the full journal score is awarded regardless of the number of co-authors. With a co-author bonus of -100, only single-authored publications are counted.

The **HCERES** ranking, is a ranking based on the Liste des revues et des produits de la recherche Hcéres pour le domaine SHS1 "Économie et gestion" - 2019 (<https://www.hceres.fr/fr/publications/liste-des-revues-et-des-produits-de-la-recherche-hceres-pour-le-domaine-shs1-1>). The ranking provided here is neither supported nor endorsed by HCERES. The journal list has been slightly modified by removing duplicate ISSNns.

The scores of the journals are obtained by assigning each category in the HCERES list a value as shown in the table below.

| HCERES Category | Score |
|-----------------|-------|
| A | 6 |
| B | 3 |
| C | 1 |

Provisions

1. P-Rank does not maintain a complete list of all relevant scholars and publications and will never be able to achieve completeness. Scholars are encouraged to add their ORCID iD on the P-Rank webpage, link their publications to their ORCID iD, and make them publicly visible. ORCID works with member organizations to make it easy to add publications to an ORCID iD.
2. P-Rank does not collect any primary data and only collects metadata about articles which are publicly seen in the ORCID record of included scholars. Scholars who have connected their ORCID iD to P-Rank, can check their record on the P-Rank webpage.
3. P-Rank seeks to maintain up-to-date information concerning the publication output of scholars, however, P-Rank does not perpetually poll ORCID for updates. Thus, there might be a delay in obtaining information about new articles and different author profiles may have received their last update at different times.
4. P-Rank is based on the belief that every ranking has severe shortcomings in respect to comparing productivity of scholars. Nevertheless, publishing research articles plays a major role in research dissemination and P-Rank aims at increasing recognition of scholars with notable publication output. P-Rank can not define what should be considered as notable publication output and encourages proposals for journal lists to be added to P-Rank. Please send such proposals to ranking@telematique.eu.
5. P-Rank must not be used as the sole mean of productivity assessment of individual scholars. Such assessments should always be based on a holistic evaluation of all relevant scholarly activities, including those which are not considered by P-Rank.
